PROFESSIONAL SUMMARY

Python Django Developer with hands-on experience building full-stack web applications, REST APIs, and business management systems. Skilled in Django, Django REST Framework, JavaScript, and relational databases, with a solid grasp of authentication, role-based access control, and payment gateway integration. Comfortable working across the stack, from backend logic and API design to responsive frontend interfaces, and quick to adapt in collaborative, fast-paced development environments.

SKILLS

Programming Languages: Python, JavaScript

Backend: Django, Django REST Framework (DRF), REST API Development, Authentication & Authorization

Frontend: HTML5, CSS3, JavaScript

Database: SQLite, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render, Antigravity, Claude Code, OpenCode

AI-Assisted Development: Antigravity, Claude Code, OpenCode

Soft Skills: Analytical Thinking, Clear Communication, Teamwork & Collaboration, Adaptability

WORK EXPERIENCE

Python Intern — Spark To Ideas, Ahmedabad

Jan 2026 – Apr 2026

- Developed Python-based applications and gained hands-on experience across the software development lifecycle.
- Built backend logic and application features in Python, working closely with mentors to follow established development standards.
- Participated in debugging, unit testing, and code optimization to improve reliability and performance.
- Collaborated with mentors and senior developers, applying software development best practices and version control workflows.

PROJECTS

Vyaparix — Full-Stack Business Management System (Personal Project)

Python, Django, Electron, SQLite, HTML, CSS, JavaScript

- Built a full-stack, desktop-deployable business management and billing platform using Python, Django, and Electron, targeting enterprise-grade invoicing workflows.
- Designed inventory, invoice, customer, and supplier management modules with a clean, consistent UI following a structured design system.
- Implemented user authentication and automated PDF invoice generation, including GST-compliant billing fields.
- Structured the application with Django templates and SQLite for a lightweight, self-contained desktop deployment.

eBharatTender — Government Tender Management System (Internship Project)

Python, Django, Django REST Framework, JavaScript, Bootstrap

- Developed a government tender management web application using Python, Django, and Django REST Framework.
- Implemented secure authentication and role-based access control for Admin, Tender Creator, and Bidder roles.
- Built CRUD workflows for tender creation, bidding, and application management.
- Integrated the Razorpay payment gateway to handle EMD (Earnest Money Deposit) payment processing.
- Generated PDF documents for tender-related reports and records.

EDUCATION

Bachelor of Engineering, Information Technology — SAL College of Engineering, Ahmedabad

2023 – 2026

CGPA: 8.46

Diploma, Information Technology — Government Polytechnic, Gandhinagar

2020 – 2023

CGPA: 7.99

AREAS OF INTEREST

Backend Web Development, REST API Design, Full-Stack Development, Database Management, Software Development Best Practices
